

Mechanical & Ferrous Limited
Mechanical & Fabricating Engineers

Registration number 03900

Mechanical and Ferrous Ltd are a well established engineering company that have been providing a rapid and reliable service at competitive rates on all engineering services and associated products for over 40 years.

Operating from our purpose built factory and offices in Erith, Kent; we can undertake a comprehensive range of manufacturing techniques, coupled with our nationwide delivery service. Whether our customer's requirements are small intricate 1off items, bespoke projects, mass-produced production runs or specialist fabrications, at Mechanical and Ferrous Ltd we have the ability and capacity to accommodate your needs.

We hold a comprehensive stock of ferrous and non-ferrous materials, which include: - Mild Steel, Stainless Steel, Aluminium, Brass, Copper, Bronze, Nylon, P.T.F.E, Tufnol and Perspex, to list but a few.

If your required materials are not listed above, then fear not, as materials that are out of stock can be sourced from our vast list of supplier's.

Our current machining capabilities include: - Centre lathe turning, CNC Turning, Milling, CNC Milling, Spinnings and Laser Profiling.

On the fabrication side we are able to: - Weld to coded standard Mild Steel, Aluminium and Stainless Steel. We also specialise in Brazing, Silver / Soft Soldering, Guillotining and Folding.

We can also offer a range of surface treatment and finishes including: - Polishing, Powder coatings, Zinc / Tin plating and glass beading.

A selection of our current clients is below: - Prysmian cables (formerly Pirelli cables), Balfour Beatty & Balfour Kilpatrick, BICC for more than 35 years, Seeboard, EDF Energy, Elmeridge Cable Service, National Power, National Westminster Bank, Tubelines, Carillian Services, The Natural History Museum, SE Trains, Siemens Transportation, the list goes on.

We don't deal exclusively with large clients. Our flexibility is such that we often work with small local businesses as well as schools, local councils and hospitals providing security devices, building repair and protection materials, lifting beams with testing and accessibility structures and devices.

Please phone or email us if you think we can help.
